Renowned the world over, JW Automarine has led the way in subsea and surface recovery & deployment airbags since 1972. Manufactured in the UK, our experienced technicians use the highest quality fabrics and materials to produce a product that can be relied upon in the harshest of environments.

JW Automarine supplies only the highest levels of service and support, as you would expect from a specialist British manufacturing company.

Open End Parachute design with a single point attachment to the load bearing strap arrangement for safe subsea lifting.

Safety Inverter Line forces deflation in event of a dropped load.

Fabricated from tough 3 ply PVC fabric with a load bearing structural polyester scrim coated on both sides with PVC for durability & UV resistance. Radio Frequency welded seams for strength and integrity.

Manufactured to IMCA D-016 Rev 4:2016  
Independently tested to a safe working load ratio of 5:1

Supplied ready for use, complete with user manual and service record book.
